

# Module 5

I know you've had a chance to explore intuitive healing; it's a powerful experience to become attuned to what's going on around you, within you and within others on an energetic level, isn't it? The more powerful aspect of how we use and experience energy is the intention we bring to it.

In this module, we are going to discuss the power of intention and how you can use it to immediately and significantly affect your life. And we will also engage in a meditation to invite your final test.

Before we get to all of that, I'd love it if you'd share with me your experience of the power of intention up to this point. Is that something that you've been aware of, and have worked with consciously? If not, what was your reaction to this whole idea that thoughts are things?

Had you heard of dowsing before this? If yes, how did you do it? If not, what did you think of this little exercise?

Now that you've been invited to interlope in on your subconscious thoughts, what did you hear going on in your mind? Were you surprised by why you found going on in your subconscious? Tell me what you've uncovered, and how you think those thoughts may have created experiences for you that you were not actually seeking to have.

This is your moment to ask any questions that you might have before receiving your test. If you have any comments or concerns, please share those with me now and I will do my best to respond as quickly as I can.

Ultimately, remember that you are Amazing! Hold the intention that this is Truth, and that your test will honour your journey so far, being a lovely and gentle blessing upon you.
